

Textile inspections in Asia

Are you a major textile company?
Have the following problems penalized you?

- > quality gap between the initial sample and the final product
- > timely delivery
- > questionable origin of the goods
- > colour variations between batches

If so, you need a
personalized solution.
Cotecna can assist you in:

- > **Reducing your costs** by early detection of quality defects.
- > **Controlling delivery dates** via regular reporting on the production process.
- > **Verifying the product** with the help of our qualified inspectors (more than 10 years experience in the textile industry)
 - pattern, colour and finish conformity
 - correct positioning of labels and embroidered logos
 - counting the number of stiches per centimetre
 - verification of the size label, textile composition, origin and bar codes
 - verification of the price stated on the item
- > **Verification** at loading and discharge
 - number of packages
 - number of items per box (in detail or by sampling with respect to international regulations)
 - quality of the packaging
 - correct labelling of packages
 - sealing of FCL
- > **We provide a detailed report** of our intervention including digital photos.
- > **Thanks to our extended network**, we can rapidly act on your behalf in the following countries:
 - Bangladesh
 - China
 - Hong Kong
 - India
 - Indonesia
 - Pakistan
 - South Korea
 - Sri Lanka
